

SUBJECT MATTER EXPERTS NEEDED

August 9, 2016

Subject: Fire Protection Subject Matter Experts needed

ASTTBC is seeking qualified and experienced ASTTBC members to volunteer as subject matter experts for Fire Protection Technician applications.

All applications and the tasks associated with assessing the competencies are now done online at <https://www.asttbcapply.ca>. The online process allows 24-7 access to the application files. Reviewing files is now paperless, more convenient and is possible regardless of where you live or work. Instructions and training on how to assess online applications are available.

By volunteering to serve as a file reviewer, ASTTBC recognizes your continued professional commitment and development. If you are actively practicing in Fire Protection or as an RFPT and have five or more years relevant work experience you are eligible to be a file reviewer. Please let us know by September 1, 2016 of your willingness to serve as a file reviewer by replying to the Registrar, cjoyner@asttbc.org

Your continuous support of ASTTBC is appreciated.

Warmest regards,

Charles Joyner, ASCT
Registrar
